45. In the past 4 weeks, have you been in any of the areas on this list? Refer to current list on the CDC webpage. <a href="http://www.cdc.gov/zika/geo/index.html">http://www.cdc.gov/zika/geo/index.html</a>	<input type="checkbox"/>	<input type="checkbox"/>

I have read and have been given the opportunity to discuss information provided by the DeGowin Blood Center regarding the risks of infection that might be transmitted by blood. I understand this information and agree not to donate blood products if I know that I have any of these infections such as AIDS or hepatitis—OR if I believe that I may have been exposed to these infections. I certify that I have provided accurate information about my health and medical history. I have read the DONOR INFORMATION SHEET and understand that my blood will be tested for evidence of infections such as AIDS, hepatitis, syphilis and other infections and that some of the testing will be used for research purposes. If positive, I will be advised of the implications of the test result and my name will be entered on a permanently deferred list. Attempts will be made to ensure confidentiality, but it is necessary that designated personnel know the results and keep records. When required by law or regulations, positive test results will be reported to the Health Department.

I understand that under certain circumstances infectious disease testing cannot be performed. The Food and Drug Administration and other regulatory agencies with oversight for blood donor facilities may view donor information for purposes of compliance auditing, but would not receive copies that contain any personal identifying information. **I understand I should withdraw myself from the donation process if I feel my blood is not suitable for donation.** I am voluntarily donating blood to the University of Iowa Hospitals and Clinics to be used as decided by the institution. The risks of phlebotomy have been explained to me and I have had an opportunity to have my questions answered.
